HOUSE.

The first business in order, to-day being Friday, was the call of committees for reports of a private nature.

Mr. Ward, from the Committee on Claims, reported a bill giving to Ishmael Dayls, of Baltimore county, Maryland, an annulty of \$421 50c. as recognition of his heroism in defending the national flag from Gilmore's rebel raiders on the 12th of July, 1864, and for his loss of property on that occasion. According to the report which was received, Mr. Davis is a patriarchial patriot, seventy-four years of age, and when two of Gilmore's raiders attempted to haul down the national flag over his dwelling, he shot one of them

empted to haul down the national hag 
over his dwelling, he shot one of them 
lead and put the other to flight. The 
consequence was his property was detroyed by a large party of rebels. 
Mr. Ward made an appeal to the 
House in support of the bill. 
Mr. Upson wanted to know upon 
what principle of law the bill could be 
sustained.

sustained.

Mr. Ward replied that it was on the great principle that we sustain every man who sustains the flag in that way.

Several members here exclaimed:

"Good. You are right."

Mr. Delano, Chairman of the Committee, explained the question. He said the rule in the Committee was to respect all claims for damage—the respect all claims for damage—the re-

Mr. Bingham opposed the amendment as causing a reflection upon the late President.

Mr. Upson moved to amend the amendment by making it read "under the laws of war." After some discussion both amendments were rejected.

Mr. Garfield then moved to amend by striking out the words, "military commissions" and called for the yeas and navs. The amendment was rejected.

There has been no communication today between this city and the steamer Virginia, the vessel which arrived at this port on Wednesday evening from Liverpool with the cholera among her passengers. No facts of great importance in addition to those published yesterday can be reported.

Three hundred pounds of nitro-glycerine arrived in this city from Hamburg about a week ago. At that time the authorities did not know the dangerous nature of the article and it was placed in public store. The matter having been brought to the attention of Surveyor Wakeman and Fire Marshal Baker both of these gentlemen began an investigation which to-day resulted in the removal of the dangerous oil from the city. It has been placed in a safe magazine at a place where there is no possibility of an explosion destroying life and injuring property. In the future no netro-glycerine will be admitted to to any of the public stores.

NEW YORK, April 20.—The Commercial's Washington special that the House Committee on Ways and Means had another stormy session this morning on licenses. They will probably have to make majority and minority reports on this and other portions of the revenue law.

Members of Congress are quietly going home on brief visits, which indicate a desire to prolong the session.

The House Judiciary Committee are investigating the charges against Davis and Clay of complicity in the assassination conspiracy.

The Post's Washington special says that that the tax bill will not be reported to Congress this week. The Committee this morning agreed to abolish the tax imposed upon farmers whose incomes are above \$1000 for the manufacture of butter and cheese.

The House passed to the consideration of the 16th section, relating to the Quartermaster's Department.

Mr. Davis moved the substitute for the section, providing for one Quartermaster General, four Assistant Quartermaster Generals, 16 Quartermasters Generals, 16 Quartermasters and 48 Assistant Quartermasters.

Pending the consideration of this section a movement was made toward adjournment.

Burustenbender was arrested on complaint of fire marshal Baker for shipping a quantity of nitro-glycerine to California, the same that exploded there, about 200 pounds in all, without labeling the packages and informing the Captain of the vessel in which it was shipped of the nature of the article. The Mayor this morning issued an order directing the Marshal to search all places in the city wherein he had reason to believe that any nitro-glycerine was stored, and to remove it to some safe place. Mr. Baker has already discovered about 300 pounds of this glycerine in a store house up town, and also a large quantity on board of a vessel. It will all be removed to some place where its explosion cannot cause any serious consequences. NEW YORK, April 20.—This mornin Journment.

On motion of Mr. Stevens it was ordered that the session to-morrow be confined to general debate upon the President's annual message.

Testimonial of the most distinguished Artists to Steinway & Sons.

New York, December, 1864.

The Planofortes, Grand, Square and Upright, manufactured by Messrs, Steinway & Sons, have established for themselvos & overde-wide a reputation that it is hardly possible for us to add anything to their just fame. Having thoroughly tested and tried these instruments personally for years, both in public and private, it becomes our pleasant duty inquestioned superiority over any other Plano known to us.

Among the chief points of their uniform excellence are: Gratest possible depth, richness and potume of tone, combined with a rare brilliancy, clearness and perfect evenness OUR STOCK IS NOW VERY FULL AND throughout the entire scale, and, above all, a surprising duration of sound, the pure and sympothetic quality of which never changes under the most delicate or powerful touch.

This peculiarity is found exclusively in the Steinway Piano, and together with the matchless precision, elasticity and promptness of action always characterizing these instruments, as well as their unequaled durability under the severest trials, is truly sarprising and claims at once the admiration of every artist. We, therefore, consider the Steinway Pianos in all respects the best Instruents made in this country or in Europe, use them solely and exclusively ourselves in public or private, and recommend them invariably to our friends and the Public.

We have all different times expressed our opinion regarding the Pianos of various makers, but feely and unhesitatingly prosounce dears, Steinway & Sons Fianos superior S. R. Millis Robert Goldbeck, Henry C.
